

NEIGHBORS FOR BETTER BIKE LANES

Membership Form

NEIGHBORS FOR BETTER BIKE LANES supports well-planned and safe bike lanes. Unfortunately, the City of New York has decided to install 1,800 miles of bike lanes without carefully studying the impact on safety, the environment, traffic, and local communities. When the public asks legitimate questions about the safety impact of bike lanes, the City evades these legitimate questions. Now, the City has started releasing misleading data to lull the public into accepting dangerously placed lanes. We deserve Better Bike Lanes, and honesty, from the City.

NEIGHBORS FOR BETTER BIKE LANES wants:

- ▶ Careful study before placement of bike lanes
- ▶ Public release of traffic and safety data
- ▶ A forum for public comments

If the City continues to ignore its obligations to the public, we will sue to force some transparency into the process.

What can I do? Join **NEIGHBORS FOR BETTER BIKE LANES** now.
