was also thinking, but didnt say explicitly in my note to georgia, that perhaps bp would share some valuable political or process insights with mastro as "teammates" , he'd be otherwise disinclined to share with one of us.

but you should go ahead because who knows if and when randy will find his way clear to call.

He has said he will get back to us with other dates and time....spoke with Molinaro....he said that DOT realized the mistake they made with the bike lane....not buying it....I think Oddo's take is the real deal!
